

AS EASY AS

P H G

You haven't banged your head on your desk in weeks. Your forehead is as smooth and unlined as a baby's. And you're not talking through clenched teeth anymore.

At PHG, our sole focus is making your life easier.

By creating Patient ID products that are intuitive instead of intricate, we can help your hospital run more smoothly, more efficiently and more safely at every point of care. We don't sell products, we offer solutions.

On the following pages, you'll find ID bands, labels and laser paper that work with any system, any printer, anywhere. We are also proud to offer software and systems that simplify the admissions process and are guaranteed to de-crazy your day.

Forget 'easy as ABC', we want your job to be as easy as PHG.

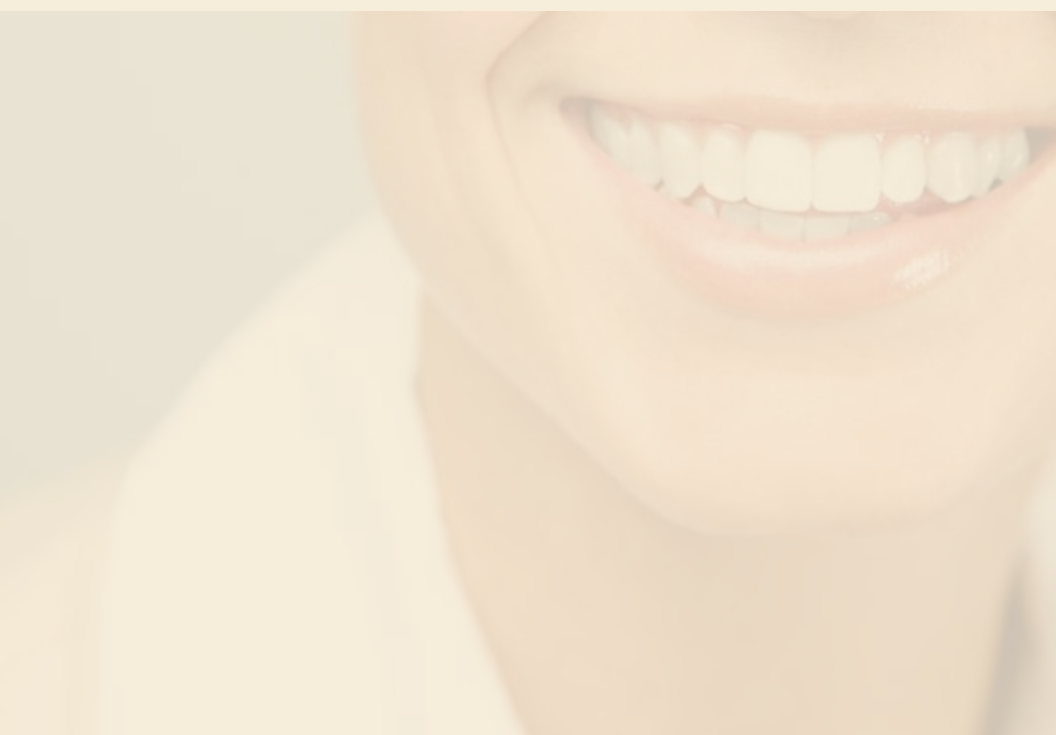

Let's get started.

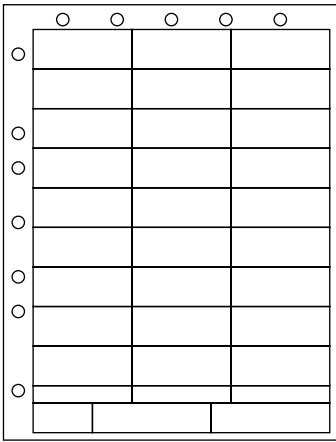

Welcome to life with PHG Technologies.

PRICING

When it comes to healthcare and patients, product quality reigns supreme. And once patient safety, product durability and availability are confirmed, cost enters the decision equation. PHG Technologies is committed to providing high quality products at the most affordable prices. Understand the need, design in simplicity, design out excess production expense and deliver the best possible products at the most affordable price – that’s our goal. The prices in our catalog represent our list price. Please contact us at **800 349-4531** to receive contract pricing.

MADE TO ORDER PRODUCTS

So, you’ve scoured our catalog and didn’t find exactly what you need? Or, you’ve got a great idea, can’t believe someone hasn’t thought of it before. Please give us a call – **800 349-4531** – and let’s see if we can get that product made for you. Our best ideas start with listening to our customers. When it comes to Patient ID, we know we’ve got a variety of good options, but we also know there are a lot more customer circumstances. We’re happy when we learn our existing products will meet your current needs, but we’re just as happy to innovate when given the challenge to create something new. Just let us know how we can help.

We’re Listening.

EASYID® SOFTWARE PRODUCTS

PHG Technologies is also a provider of patient ID and forms automation software applications. Starting in 1995, with our first barcode patient ID application designed to replace card embossers/addressographs, PHG has been leading the way in efforts to secure positive patient identification. No matter where you are on the patient ID technology spectrum – embossed image, linear barcode, 2-D barcode, RFID – PHG is ready to discover your needs and help you meet your goals.

HOW TO GO ON VACATION

WITHOUT DOUBLING YOUR WORK WHEN YOU RETURN

Now that you're making life easier with PHG, it's time to consider taking a break. A vacation is in order. But, time off isn't always easy—it can end up doubling your workload when you return. Don't forego your vacation for fear of playing catch-up. Instead, take a few easy steps to simplify your return.

Tell your coworkers the dates of your vacation. Sure, you'll tell your supervisor your time-off dates, but make sure it's on the calendars of your coworkers, too. Look together at any deadlines or needs that will arise during or around those days so you can strategize how to get tasks done. By planning with others in the office, everyone will be prepared for your absence.

Share your knowledge and responsibility with others. Okay, so you are indispensable around the office. But, wouldn't it be nice to not be the only one with answers? You'll find life a lot easier if you make sure someone else has access to your expertise. You can do this by creating a simple list of situations that might

arise while you are gone along with your recommended solutions. You'll have fewer fires to extinguish after your vacation.

Use technology to help you. Set your email to reply to messages with a vacation message. Customize that message with action that can be taken while you are away – alternative people to call, answers to common questions, etc.

Look at your inventory. If you're afraid you'll run out of product, submit an order to us that can be activated by a simple email or call from one of your colleagues. You may simply want to place an order before you go, so you're sure to have the products you need when you return. There's no reason for ease to end when you return from vacation.

Don't worry. A refreshed and rested you is the point of getting away. So, turn off your phone and leave work behind. Your work will look easier when you return relaxed.
